

## STATE ROUTE 77 (400 SOUTH): I-15 TO MAIN STREET PROJECT DETAILS

- Length: Two miles from I-15 to Main Street in Springville (U.S. 89).
- Road primarily serves the communities of Springville and Mapleton.
- Rebuild freeway interchange as Single Point Urban Interchange (SPUI).
- Build auxiliary lane along southbound I-15 from north Springville (S.R. 75) interchange to 400 South interchange (S.R. 77).
- Widen road to four lanes with center median.
- Build new bridge at approximately 1500 West over railroad tracks (project team is working closely with Intermountain Power Association).
- Replace existing bridge at 400 West with wider structure.
- Project team is coordinating with other area projects.
- Funded amount: \$89 million.

### ROAD WAY CROSS-SECTIONS

RAISED MEDIAN WILL BE CONCRETE OR LANDSCAPED
